

Who appreciate the value of keeping a memorandum of business transactions, daily events, and items of interest or importance, for future reference.

A PRESENT FROM THE VORLO'S DISPENSARY MEDICAL ASSOCIATION BUFFALO, N. Y., and LONDON, Eng.

TO WHOM THIS MAY CONCERN:

Be it known that I have exact knowledge of the ingredients entering into the composition of my Dr. Pierce's Favorite Prescription and Dr. Pierce's Golden Medical Discovery, and neither of them contains any alcohol or any poisonous, injurious or habit-forming drugs as compounded at the Chemical Laboratory of the World's Dispensary Medical Association in the City of Buffalo, and sold through druggists; and furthermore, I do solemnly affirm that the list of ingredients as printed on all wrappers inclosing bottles of these medicines is full, correct and complete in every respect.

County of Erie, City of Buffalo, State of New York. R. V. PIERCE, M. D.

Personally appeared before me, Dr. R. V. Pierce who, being duly and solemnly sworn, deposes and says that the above statement, signed by him, is true to the best of his knowledge and belief.

SEAL.

CHAS. G. HERGER,

Sworn and subscribed to before me this 25th day of May, 1906.

RATES OF POSTAGE.

FIRST CLASS. - Letters to any part of the United States, two cents per ounce, or fraction thereof, prepaid.

SECOND CLASS.—Transient newspapers and periodicals, one cent for each four ounces, or fraction thereof.

'FHIRD CLASS.—Books, unscaled circulars, and all printed matter except newspapers, seeds, cuttings, roots, etc., one cent for each two ounces, or fraction thereof.

FOURTH CLASS.—Merchandise, types, metals, ores, and minerals, and all mailable matter not in other classes, one cent for each ounce, or fraction thereof.

CHARGES FOR MONEY-ORDERS.— Money-orders can be obtained only at designated Money-order Offices. Money can be sent to any part of the country with absolute safety, by obtaining a Money-order, for which the fees are: On orders not over \$2.50, 3 cts.; over \$2.50, and not over \$5.5 cts.; \$5 to \$10, 8 cts.; \$10 to \$20, 10 cts.; \$20 to \$30, 12 cts.; \$30 to \$40, 15 cts.; \$40 to \$50, 18 cts.; \$50 to \$60, 20 cts.; \$60 to \$75, 25 cts.; \$75 to \$100, 30 cts.

All mail matter to Cuba, Porto Rico, Hawaii, Guam and the Philippine Archipelago, is subject to the classification and rates above given.

Letters may be registered at any Post-office for 8 cents, in addition to the regular postage.

Verdict for Dr. Pierce

AGAINST THE

LADIES' HOME JOURNAL.

Sending truth after a lie. It is an old maxim that "a lie will travel seven leagues while truth is getting its boots on," and no doubt hundreds of thousands of good people read the unwarranted and malicious attack upon Dr. R. V. Pierce and his "Favorite Prescription" published in the May (1904) number of the Ladies' Home Journal, with its great black display headings, who never saw the humble, groveling retraction, with its inconspicuous heading, published two months later. It was boldly charged in the slanderous and libelous article that Dr. Pierce's Favorite Prescription, for the cure of woman's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit against the publishers of the Ladies' Home Journal, for \$200,000,00 damages.

Dr. Pierce proved on the trial of the case that Mr. Bok, the editor, maliciously published the article containing such false and defamatory matter with the intent of injuring his business; furthermore, that no alcohol, or other injurious, or habit-forming, drugs are, or ever were, contained in his "Favorite Prescription"; that said medicine is made from native medicinal roots and contains no harmful ingredients whatever, and that Mr. Bok's malicious

statements were wholly and absolutely false.

In the retraction printed by said Journal they were forced to acknowledge that they had obtained analyses of "Favorite Prescription," from eminent chemists, all of whom certified that it did not contain alcohol or any of the alleged harmful drugs!

These facts were also proven on the trial of the action in the Supreme Court. But the business of Dr. Pierce was greatly injured by the publication of the libelous article with its great display headings, while hundreds of thousands who read the wickedly defamatory article never saw the humble groveling retraction, set in small type and made as inconspicuous as possible. The matter was, however brought before a jury in the Supreme Court of New York State which promptly rendered a verdict in the Doctor's favor.

A Bold Step.

MS

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has absolutely and completely removed his medicines from among secret nostrums of doubtful merits, and made them Remedics of Known Composition.

They are now in a class all by themselves==being

absolutely and in every sense Non-secret.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid

to subject them to the fullest scrutiny.

So many false formulas and malicious statements concerning his medicines had been published through the connivance of jealous competitors and disgruntled doctors, that Dr. Pierce determined to completely disarm his assailants by a full and frank statement of their exact composition, verifying the same under oath as complete and correct. This has done and to the complete discomfiture of those who had assailed his good name as well as the well-earned reputation of his world-famed medicines.

This open publicity on the part of Dr. Pierce is a radical departure from the usual policy pursued by manufacturers of proprietary medicines and at one takes Dr. Pierce's medicines out of the list of secret or "patent medicines" (so-called) and places them in a class all by themselves as they are medicines on every bottle in the full list of its ingredients duly

attested under solemn oath.

No other medicines put-up for general use an sold through druggists, can make claim to any such distinction, and none other than Dr. Pierce's have any such professional endorsement of their ingredients as characterize these preparations. Such professional endorsement should have far more weight with the afflicted than any amount of lay endorsements, such as the ordinary non-professional testimonials.

A Square Deal

Is assured you when you buy one of Dr. Pierce's family medicines-for all the ingredients entering into them are printed on the bottle appers and their formula are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent .. used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable anti-septic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heartburn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sages Catarrh Remedy. This thorough course of treatment generally cures even in the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advance stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on-coughs caused by irritation and congestion of the bronchia mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken

A Woman's Health

Is a heritage too sacred to be experimented with. For her peculiar and delicate ailments only medicines of known composition and which contain no alcohol. narcotics, or other harmful or habit-forming drngs should be employed. Such a medicine is Dr. Pierce's Favorite Prescription-a remedy with a record of over forty years of cures to recommend it; a remedy, the makers of which print its formula on every bottle-wrapper and attest its completeness and correctness under oath: a remedy devised and adapted to woman's delicate constitution by an educated physician—an experienced specialist in woman's diseases; a remedy, every ingredient of which has received the written endorsement of the most eminent medical writers of all the several schools of practice for the cure of women's peculiar diseases; a remedy which has more bona-fide cures to its credit than any other sold by druggists for woman's special requirements. It is not given away in the form of "trial bottles" to be experimented with, but is sold at a fair price by all dealers in medicines.

If a woman has bearing down, or dragging pains, low down in the abdomen, or pelvis, backache, frequent headaches, dizzy or fainting spells, is nervous and easily startled, has gnawing feeling in stomach, sees imaginary floating specks, or spots before her eyes, has melancholia. or "blues." or a weakening disagreeable drain from pelvic organs, she can make no mistake by resorting to the use of Dr. Pierce's Favorite Prescription. It will invigorate and tone up the whole system and especially the pelvic organs.

No woman suffering from any of the above symptoms can afford to accept any secret nostrum or medicine of unknown composition, as a substitute for a medicine like Dr. Pierce's Favorite Prescription. which is of known composition and has a record of over forty years of cures and sells more largely to-day than ever before. Its makers withhold no secrets from their patients, believing open publicity to be the very best guaranty of merit.

Dr. Pierce invites all suffering women to consult him by letter free of charge. All letters of consultation are held as strictly private and sacredly confidential and all answers are returned in plain, sealed envelopes. Address: Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

1906. S. 4 11 18 25 M. 5 12 19 26 T. 6 13 20 27 W. 7 14 21 23 T 1 8 15 22 29 F 2 9 16 23 30 S 3 10 17 24 31	MARCH. THIS WILL REMIND ME OF MY DAILY EXPENSES.	1907. S 3 10 17 24 31 M 4 11 18 25 T 5 12 19 26 W 6 13 20 27 T 7 14 21 28 F 1 8 15 22 29 S 2 9 16 23 30

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea

at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The following leading medical authorities, among a host of others, extol each of the several ingredients entering into the "Discovery" for the cure of just such aliments as the above symptoms indicate: Prof. R. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of American Dispensatory; Prof. Jno. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica

It's an insult to your intelligence for a dealer to endeavor to palm off upon you some nostrum of unknown composition in place of one of Dr. Pierce's world-famed medicines which are of known composition. Most dealers recommend Dr. Pierce's medicines because they know what they are made of and that the ingredients employed are among the most valuable that a medicine for like purposes can

and Professor in Bennett Medical College, Chicago.

be made of.

With tricky dealers it is different.

Something else that pays them a little greater profit will be urged upon you as "just as good," or even better. You can hardly afford to accept a substitute of unknown composition and without any particular record of cures in place of Dr. Pierce's medicines which are OF KNOWN COMPOSITION and have a record of forty years of cures behind them. You know what you want and it is the dealers business to supply that want. Insist upon it.

Doctors Mistakes

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia. another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easygoing or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they a ... lonly sumptoms caused by some uterine disease. The physician. ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better, by reason of the wrong treatment, but probably worse. A proper n. __ine like Dr. Pierce's Favorite Prescription, a. ected to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to well-an's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any

condition of the femule system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For over-worked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shopgirls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unequaled ar is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms. St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental

anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are exactly akin to the churning of butter. Is it not apparent then that if this stomach-churn is foul it

makes foul all which is put into it? The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it. but the corruption of the pure current of blood and the dissemination of disease throughout the body, Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn-absolutely removes every tainting or corrupting element, In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood. To aid in healing old sores, or ulcers, apply Dr. Pierce's All-Healing Salve to them.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired. feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach. constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspep

sia and its attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the several schools of medica practice, have been skillfully and harmoniously com bined in Dr. Pierce's Golden Medical Discovery That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal care request to Dr. R. V. Pierce, Buffalo, N. Y., for a fre copy of his booklet of extracts from the standard medical authorities, giving the names of all the in gredients entering into his world-famed medicine and showing what the most eminent medical men o the age say of them. 12

People Who Think

Know that it is safest and best to use only MEDICINES OF KNOWN COMPOSITION. They don't stupidly open their mouths like a lot of young birds, and gulp down whatever is offered them, but insist on knowing what they are swallowing. Dr. Pierce recognizes the right of his patients to know what his medicines are composed of, so he prints the full list of ingredients of which they are composed on each bottle-wrapper, and verifies the same under oath as being correct, thus taking his patients into his full confidence and insuring them a square deal.

A glance at their printed formulas will show that the Doctor's medicines contain no alcohol, so generally employed for extracting and preserving medicinal principles, pure triple-refined glycerine being

used instead.

By exact and scientific processes devised by him. and with the aid of specially designed apparatus and appliances he is able to fully extract and preserve, in any climate, for any length of time, all the medicinal virtues residing in our most valuable native medicinal roots found in our American forests and that too without the use of a drop of alcohol. Besides the glycerine possesses most valuable medicinal properties of its own, instead of being injurious like alcohol which is so generally employed in nearly all fluid medicines.

Delicate, weak, nervous women should especially shun the use of alcoholic medicines which, from their stimulating and exhilerating effects may seem, for a time, to do good, but which from the inevitable effects of the alcohol in shrinking up the red corpuscles of the blood are sure to do great and lasting harm in the long run. Besides they beget a craying

for stimulants which is most deplorable.

Neither alcohol, narcotics or other deleterious and habit-forming drugs enter into the composition of Dr. Pierce's Favorite Prescription. Only invigorating and nerve strengthening effects can follow the use of this famous medicine for women. It has been carefully adapted to their needs by an experienced physician—a specialist in their diseases. It makes weak women strong and sick women well.

Dr. Pierce's Pleasant Pellets are the original Little Liver Pills, first put up by old Dr. Pierce over 4 years ago. Much imitated but never equaled. Easy

to take as candy.

Woman's Watchword Is Modesty.

Whatever threatens woman's delicate sense of modesty, frightens her. For this reason many a woman permits disease of the delicate womanly organs to become aggravated because she cannot bring herself to submit to the ordeal of unpleasant questionings, offensive examinations, and obnoxious local treatments, which most physicians think necessary. Doubtless thousands of the women who have taken advantage of Dr. Pierce's offer of free consultation by letter have been led to do so by the escape thus offered from a treatment repugnant to modesty.

Any sick woman may write to Dr. R. V. Pierce, Buffalo, N. Y., in perfect confidence; all letters of consultation being treated as strictly private and sacredly confidential, and all answers being sent in plain envelopes with no advertising or other printing upon them. Such consultation costs you nothing whether you take treatment from Dr. Pierce or not.

Dr. Pierce's Favorite Prescription has been long hailed as a "God-send to women." It makes weak women strong and sick women well. It enables women suffering from "female weakness," prolapsus uteri, retroversion, anteversion, and other displacements of the organs distinctly feminine, to cure themselves right in the privacy of their homes. Pelvic catarrhal drains, painful or irregular periods, backache. frequent headaches, weak nerves, dragging-down pain or distress in the lower abdom: , or pelvic region, gnawing sensation in stomach, dizziness, or faint spells, and kindred conditions and nptoms are cured by Dr. Pierce's Favorite Prescription. It's not a secret or patent medicine against the use of which most people of intelliger naturally object but is, in fact, the "Favorite Prescription" of a regularly educated and experienced physician in the treatment of woman's peculiar ailments and who is not afraid to publish all its ingredients, as he does on its bottle-wrapper, attesting the correctness o the same under fath. It contains neither alcoho nor harmful, habit-forming drugs, being a pure glyc eric extract of curative principles found in our mos valuable native, medicinal root, s attested by man of the most eminent medical writers and teachers of all the several schools of practice.

You can't afford to accept a secret nostrum as a substitute for this proven remedy of known com

POSITION.

Words of Praise

Dr. Pierce's Favorite Prescription

From well recognized authorities of all Schools of Medicine.

The above illustration represents the five native medicinal plants which enter into Dr. Pierce's Favorite Prescription.

Prof. JOHN M. SCUDDER, M. D., author of Specific Medicines, says of Golden Seal root: "It stimulates the digestive processes, and increases the assimilation of food. By these means the blood is enriched, and this blood feeds the muscular system."

Prof. SCUDDER continues: "In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. FINLEY ELLING-

wood, M. D., of Bennett Medical College, Chicago, says of Golden Seal: "In its therapeutic (remedial) influence its widest range of action is upon the stomach, in functional disorders of that organ, where the entire apparatus, including the liver is stagnant and inoperative. It is a most superior remedy in catarrha gastritis (inflammation of the stomach) chronic constitution, general debility, in convalescence from protracted fevers, in prostrating night-sweats. It is an important remedy in disorders of the womb. In al catarrhal conditions, especially if there be muscular relaxation and general enfeeblement, it is useful."

BLUE COHOSH (Caulophyllum).

Of Caulophyllum (Blue Cohosh), RAFINESQUE state that: "As a powerful emmenagogue it promotes men

struation and dropsical discharges," and that "It was employed by the Indians for rheumatism, dropsy, epilepsy, hysterics, inflammation of the uterus, etc." Dr. SCUDDER believed that this agent exerted its influence through the hypogastric plexus (of nerves), thus affecting the circulation, nutrition and functions of the reproductive organs. The AMERICAN DISPENSATORY says: "The Indian squaws employed a decoction of the root for two or three weeks previous to

labor to facilitate childbirth." Prof. JOHN KING, M. D., says: "When used by delicate women, or those who experience prolonged and painful labors, for several weeks previous to confinement, it gives tone and vigor to all the parts engaged in the accouchement (delivery), facilitating its progress, and relieving much suffering." Prof. HALE testifies, "that of women who have taken Blue Cohosh previous to confinement, all had very easy labors and made good recoveries. Blue Cohosh acts as an antiabortive by relieving the irritation upon which the trouble depends." Dr. KING states: "That for this purpose it is fully equal to viburnum." He continues, "It has been employed to relieve irritation of the reproductive organs dependent on congestion. It controls chronic inflammatory states of the organs and gives tone in cases of debility. In the sexual disorders of the female it is indicated by tenderness and pain in the uterus. In debilitated patients, it has been very successfully used in cases of hysteria to overcome the attack, and to relieve ovarian, or mammary pain, or irritation when accompanying that disorder. Chronic ovaralgia, uterine leucorrhaa, amenorrhaa (suppressed menstruation) and dysmenorrhea (painful menstruation), are conditions in which it has been most successfully employed. It has an established reputation as a remedy for * * * uterine cramps attending menstruation, and for menorrhagia ('flooding ' or profuse menstruation.)"

UNICORN RCOT (Helonias Dioica).

The American Dispensatory (prepared by Professors King and Scudder), says: "Helonias, or Unicorn root, is valuable in atony (weakness) of the generative organs." Professor King says, "have found this plant to possess a decidedly beneficial influence in cases of sexual lassitude in both sexes, the result of excesses, especially in those instances where there are symptoms of gastric (stomach), derangement with impaired memory, mental apathy, or indifference, and an en-

so

feebled condition of the general system, with weakness or dull pain in the renal, or lumbo-sacral ('small of the back') region. In diseases of the reproductive organs of females, and especially of the uterus (womb), it is one of our most valuable agents, acting as a uterine tonic, and gradually removing abnormal conditions, while at the same time it imparts tone and vigor to the reproductive organs. Hence, it is much used in leucorrhea, amenorrhea (suppressed menstruation), dvsmenorrhaa (painful periods) and to remove the tendency to repeated and successive miscarriages. particular phase removed by it is the irritability and despondency that often attends uterine troubles. In painful menstruation it has been found especially adapted to those cases in which there is pelvic fullness. a sensation as if the womb and rectum were distended with blood, and the aching, bearing-down organs feel as if they would fall out of the body. Its action here is very decided. Helonias is a decided tonic to the urinary tract."

Dr. JOHN FYFE in THE ECLECTIC REVIEW says of Unicorn root (Helonias Dioica) one of the chief ingre-

dients of Dr. Pierce's Favorite Prescription:

"A remedy which invariably acts as a uterine (womb) invigorator and always makes for normal activity of

the entire reproductive system."

"Helonias (Unicorn root) more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent."

He continues: "Helonias (Unicorn root)-through its tonic and alterative influence-acts equally well in amenorrhœa (suppressed menstruation) and in menorrhagia (flooding or profuse menstruation). It is especially called for in cases of amenorrhoea which are accompanied by general debility and an atonic (weak) condition of the digestive organs, as it increases the appetite and promotes digestion and assimilation. When there is atony (weakness) of the generative organs and a tendency to miscarriage its tonic influence upon the sexual system will aid much in bringing about a normal condition of the structures involved. In sterility and impotence its curative powers is unmistakable, and within a reasonable time it will restore to healthful activity all cases not dependent upon organic wrongs, and in leucorrhœa ("whites") and defective menstruation it is a frequently needed remedy."

"The follo ring are among the leading indications for

NOVEMBER.

MEMORANDA THAT WILL SAVE DISPUTES WITH MY FRIENDS AND NEIGHBORS.

Helonias: Pain or aching in the back, with leucorrhea; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia ('flooding'), due to a weakened condition of the reproductive system; amenorrhea, arising from or accompanying an abnormal condition of the digestive organs and an anemic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading and predominating ingredients of which is Unicorn root, or Helonias. In fact, "Favorite Prescription" is rich in all the medicinal properties of this most useful medicinal root and can confidently be relied upon to produce its full curative effects.

BLACK COHOSH (Cimicifuga Racemosa).

Prof. JOHN KING, in the American Dispensatory says: "This is a very active, powerful and useful remedy, and appears to fulfill a great number of indications. Upon the reproductive organs it exerts a specific influence, promoting the menstrual discharge." He continues: "Macrotys (Black Cohosh) plays a very important part in the therapeutics of Gynecology (diseases of women). In the painful conditions incident to imperfect menstruation, its remedial action is fully displayed. By its special affinity for the female reproductive organs, it is an efficient agent for the restoration of suppressed menses. In dysmenorrhea (painful periods), it is surpassed by no other drug, being of greatest utility in irritative and congestive conditions of the uterus and appendages, characterized by tensive, dragging pains, resembling the pains of rheumatism. It is a good remedy for the reflex 'side-aches' of the unmarried woman. When there is a disordered action or lack of functional power in the uterus, giving rise to sterility, Cimicifuga (Black Cohosh) often corrects the impaired condition and cures. Reflex mammary pains during gestation are met by it, and in rheumatic subjects it promptly relieves such ovarian troubles as ovaralgia and neuralgia. Its action is slow, but its effects are permanent. It has been used successfully as an antispasmodic in hysteria, epilepsy when due to menstrual failings, periodical convulsions, nervous excitability, and many other spasmodic affections."

"For headache, whether congestive or from cold, neuralgia, dysmenorrhea, or from la grippe, it is promptly curative. As a remedy for pain, Macrotys is a very prompt agent often relieving in a few hours, painful conditions that have existed for a long time."

LADY'S SLIPPER ROOT (Cypripedium).

Prof. JOHN M. SCUDDER says: "This root is valuable in all cases of nervous excitability or irritability unconnected with organic lesions, allaying the irritability, lessening any accompanying pain, producing a more calm and cheerful condition of the body and mind, and consequently favoring mental tranquility, or sleep. Hence it has been of service in hysteria. chorea, nervous headache, wakefulness and prostration in low fevers, epilepsy from reflex irritation, and indeed, in all cases of morbid irritability of the nervous system, from functional derangement or reflex irritation. It will be found very efficient in the nervousness, hypochondria, or mental depression accompanying certain forms of derangement of the digestive organs, which is more generally met with among females."

The foregoing are only a few brief extracts taken from amongst the voluminous endorsements which the several ingredients entering into Dr. Pierce's Favorite Prescription have received from the most eminent medical writers of all the different schools of medicine. After reading them can any reasonable person doubt that Dr. Pierce has selected and compounded his "Prescription" from the most valuable ingredients known to the medical profession for the cure of those chronic diseases of women for which he recommends it?

Bear in mind that Dr. Pierce's Favorite Prescription is rich in all the medicinal principles found in each of the five ingredients treated of in the preceding extracts. These several active principles are so harmoniously blended that each enhances the curative action of all the others. You therefore get the cumulative curative effect of all these valuable remedial agencies, as set forth in the foregoing brief extracts, when you

use Dr. Pierce's Favorite Prescription.

DR. PIERCE'S FAVORITE PRESCRIPTION is the only medicine for women, the makers of which are not afraid to print all its ingredients on the bottle-wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our

Memoranda.

. =	
*	
	1
•	

day, recommending it for the diseases for which "Favorite Prescription" is advised. It is the only put-up medicine for women, sold through druggists, which does not contain a single drop of alcohol, so harmful in the long run, especially to delicate women. All other medicines, sold through druggists for woman's ailments contain large percentages of this harmful agent. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the operating table and the surgeon's knife. It has restored delicate, weak woman to strong and vigorous health and vitality, making motherhood possible where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.

WHOSE SAY=SO IS BEST?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone and exclusively as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claim to the confidence of invalids does not rest solely upon their owners' and makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

The writings of these men have been for the various medical journals and for publication in standard medical books for professional reading and instruction, and hence are the more valuable as they relate to Dr. Pierce's medicines, since the writers did not know that they were endorsing and recommending articles that enter into the composition of these medicines and had no personal interest whatever therein. Hence, their great value as endorsements.

A brief synopsis, of a small part only, of these extensive writings, which apply to the several ingredients entering into Dr. Pierce's medicines will be found in the preceding pages.

In favor of Dr. Pierce's medicines is the frank, confiding, open, honest statement of their full composition, giving every ingredient in plain English, without fear of successful criticism and with confidence that the good sense of the afflicted will lead them to appreciate this honorable manner of confiding to them what they are taking into their stomachs when making use of these medicines.

Memoranda.

In all cases of Female Weakness, attended by a pelvic drain, or offensive discharge, in addition to a persistent use of Dr. Pierce's Favorite Prescription as a constitutional, tonic and supportive treatment, do not fail to use a solution of these "Lotion Tablets" with approved female syringe-for local strengthening and healing effects.

The cleansing, antiseptic and tonic effects of this lotion are particularly beneficial and curative in all obstinate and long standing cases. In prolapsus, or falling of the womb, do not fail to use this valuable aid to the treatment. If your dealer does not have the "Tablets" in stock (as most of them have), mail 25 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and you will receive them by return post.

If ulceration is suspected, from the persistency of the discharge and its failure to yield, in due time, to the use of the "Favorite Prescription" and the "Purifying and Strengthening Lotion Tablets" solution, do not fail to

apply one of

Pressing the Suppository well up against the mouth of the uterus, first having cleansed the parts thoroughly

with hot water and soap.

This application should be repeated every second or third night. The use of the "Lotion Tablet" solution may be omitted on nights when "Suppositories" are ap-

plied.

The "Antiseptic and Healing Suppositories" can do no harm in any case. They are a very efficient part of the treatment in all cases of ulceration about the mouth or neck of the uterus. They are also very useful in prolapsus or falling of the internal feminine organs.

If your druggist does not have them in stock, send 25 cts. in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive them by return post.

Memoranda.

Words of Praise

FOR INGREDIENTS OF

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

From Eminent Medical Writers.

The above illustration represents the six native medicinal plants which enter into Dr. Pierce's Golden Medical Discovery.

Prof. R. BARTHOLOW. M. D., of Jefferson Medical College, a recognized authority on Materia Medica and Therapeutics, says of Hydrastis (Golden Seal): "Verv useful as a stomachie tonie (stomach tonie) and in atonic dyspepsia (weak stomach). gastric catarrh (catarrh of stomach) and headaches accompanying same. In * * * jaundice, it is of especial utility. Constipation, with hard and dry stools, may be overcome by this remedy. Chronic catarrh of the intestines. even if it has proceeded to ulceration, is remarkably benefited by Hydrastis. In fissure of the anus, hemorrhage (bleeding) from the rectum (lower bowel), and

ulceration of the rectal mucous membrane, hydrastis produces healing. It diminishes mucus in catarrh of the bladder. Valuable in uterine hemorrhage or menorrhagia (flooding) and congestive dysmenorrhea (painful menstruation). Locally good in ** leucorrhea, ulceration and erosion of the cervix (neck of womb), unhealthy and sloughing sores and old ulcers of the leg."

The foregoing is certainly a wonderfully strong endorsement of one of Dr. Pierce's chief ingredients, used in "Golden Medical Discovery," and also in his "Favorite Prescription." Both medicines are rich in the medical properties extracted from Golden Seal.

From "Organic Medicines," by GROVER COE, M. D., of New York, we extract the following: "Hydrastis (Golden Seal) exercises an especial influence over

Memoranda.

		•
		7
	- 1	
MANAGEMENT OF THE PARTY AND THE TAXABLE PARTY OF THE PART		
2	2	

mucous surfaces. Upon the liver it acts with equal certainty and efficacy. As a cholagogue (liver invigorator), it has few equals." Prof. Core recommends Golden Seal "in scrofula, glandular diseases generally, cutaneous eruptions, indigestion, debility, diarrhea and dysentery, constipation, piles and all morbid and critical discharges."

Dr. Coe continues: "Hydrastis (Golden Seal), has been successfully employed in the cure of leucorrhea. It is of singular efficacy when that complaint is complicated with hepatic (liver) aberration (derangement). Hydrastis is also of inestimable value in the treatment of chronic derangements of the liver. It seems to exercise an especial influence over the hepatic (liver) structure generally, resolving (dissolving) biliary deposits (gall stones), removing obstructions, promoting secretion, and giving tone to the various functions. It is eminently cholagogue (liver accelerator), and may be relied upon with confidence for the relief of hepatic (liver) torpor."

"In many derangements of the urinary apparatus we have found the Hydrastis (Golden Seal) to answer an admirable purpose. In chronic inflammation of the bladder, we deem it one of the most reliable agents of cure. As a tonic in the convalescing stages of fevers, pneumonia, dysentery, and other acute diseases, the Hydrastis is peculiarly appropriate. It promotes digestion and assimilation, obviates constipation, and gives tone to the depurating (cleansing) functions generally."

Dr. Coe continues: "We would here add that our experience has demonstrated the Hydrastis to be a valuable remedy in bronchitis, laryngitis, and other affections of the respiratory organs."

After reading the foregoing extracts from eminent medical authorities, who can doubt the great efficacy, in a long list of chronic diseases, of "Golden Medical Discovery" one of the principal ingredients of which is Golden Seal (Hydrastis)?

BLACK CHERRYBARK (Prunus Virginiana).

Prof. R. Bartholow, M. D., says: "Wild Cherrybark is an excellent stomach tonic; it has long been held in great esteem in domestic practice, as a remedy in catarrhal states of the bronchial mucous membrane and in Phthisis (Consumption)." "The sirup is much used as an ingredient in cough mixtures."

Memoranda.

	-1

QUEEN'S ROOT (Stillingia).

Prof. John King, M. D., Author of the American Dispensatory, says: "An alterative (blood purifier) unsurpassed by few if any other of the known alteratives, Most successful in skin and scrofulous affections. Beneficial in bronchial affections—permanently cures bronchitis—relieves irritations—an important cough remedy—coughs of years standing being cured by it. Aids in blood-making and nutrition, and may be taken without harm for long periods." Prof. Hobart A. Hare, M. D., of Med. Dept. University of Pa., says or Queen's root: "Highly recommended in chronic constipation, in hemorrhoids (piles), of value in pastylooking, "putty-faced" children who are anemic (bloodless) or strumous (scrofulous), and who never have an appetite, or are subject to middle-ear trouble ('earaches,' etc.)"

Prof. FINLEY ELLINGWOOD, M. D., Bennett Medical College, Chicago, says: "As an alterative it has taken front rank with Eclectics for fifty years (written 1903). It is in general use * * * in scrofula and in blood-

taint of any character."

MANDRAKE ROOT (Podophyllum).

"Certain, sure cathartic; leaves bowels in improved condition. A gentle stimulant tonic; improves the appetite. Particularly valuable in dyspepsia, gastric and intestinal catarrh. Beneficial in some affections of bladder."—AMERICAN DISPENSATORY. Podophyllin extracted from Mandrake root constitutes an important ingredient of Dr. Pierce's Pleasant Pellets.

BLOODROOT (Sanguinaria).

THE AMERICAN DISPENSATORY, says: "Stimulates digestive organs, increases action of heart and arteries—stimulant and tonic. Very valuable as a cough remedy—acts as a sedative—further valuable as alterative (blood cleanser)."

STONE ROOT (Collinsonia Canadensis).

Prof. King says: "Alterative, tonic, stimulant. Valuable in laryngitis—'ministers' sore throat.' In diseases of stomach and intestines—improves appetite, promotes flow of gastric juice; tonic effect upon organs involved. A good remedy in indigestion, dyspepsia, chronic gastritis, increasing the secretion from kidneys and skin."

Prof. W. PAINE, M. D., of Philadelphia, in his work entitled "The Properties and Uses of Concentrated

Memoranda.	

Medicines," writing of Collinsonin (the active medicinal principle of Collinsonia Canadensis, or Stone root), says: "I, not long since, had a patient who was so much oppressed with a valvular disease of the heart that his friends were obliged to carry him up-stairs. He, however, gradually recovered under the influence of Collinsonin, and is now attending to his business. Heretofore physicians knew of no remedy for the removal of so distressing and so dangerous a malady. With them it was all guess-work, and it fearfully warned the afflicted that death was near at hand. Collinsonin unquestionably affords relief in such cases, and in most instances effects a cure."

Prof. John M. Scudder, M. D., in his treatise entitled "Specific Medication," says: "Collinsonia (Stone root), is a specific in 'ministers' sore throat' (chronic laryngitis)." He continues: "It proves beneficial in other cases of chronic laryngitis, in chronic bronchitis and phthisis (consumption), allaying irritation and checking cough. It also exerts a favorable influence upon the digestive processes, improving the appetite, facilitating digestion and acting as a general tonic. It passes off through the kidneys and exerts a tonic influence upon the entire extent of the urinary tract. I regard it as one of the most direct and valuable agents of Materia Medica and one that will give satisfaction to whoever employs it."

The above are strong endorsements of one of the most valuable ingredients contained in "Golden Medical Discovery," viz., Collinsonia, or Stone root. Its virtues however are not over-extolled, as we can attest from our experience and observation in watching the beneficial action of the "Discovery" in heart affections, laryngitis, bronchitis, incipient consumption and other ailments noted above.

THE BADGE OF HONESTY.

'Each bottle of Dr. Pierce's medicines bears upon its wrapper a badge of honesty in the full list of its ingredients. This open publicity places these medicines in a class all by themselves.

The exact proportion of ingredients used, as well as the working formula and peculiar processes, apparatus and appliances employed in their manufacture, are withheld from publicity that Dr. Pierce's proprietary rights may not be infringed and trespassed upon by unprincipled imitators and those who may be piratically inclined.

CHRONIC NASAL CATARRH

is a disease so common, that hawking, blowing and expectorating meet us at every turn. Few diseases are less understood, or more unskill-

fully treated by physicians.

SYMPTCMS.—Frequent headache, lassitude lack of ambition or energy; discharge falling into the throat, sometimes profuse, watery, acrid. thick and tenacious, mucous, purulent, offensive, etc.; in others a dryness; watery, weak or inflamed eyes; obstruction of nasal passages, ringing in ears, deafness, hawking and

coughing to clear the head and throat, ulcerations, death and decay of bones, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of senses of smell, taste, and hearing, dizziness, mental depression, loss of appetite, indigestion, dyspepsia, enlarged tonsils and sometimes

tickling cough.

All the above symptoms are common to the disease in some of its stages or complications, yet thousands of cases annually terminate in serious throat and lung affections, and end in the grave, without even having manifested one-third of the symptoms above enumerated. As a local application for healing the diseased condition in the head

DR. SAGE'S CATARRH REMEDY

is very efficient. It is mild and pleasant to use, producing no smarting or pain. It is guaranteed to contain no harmful, poisonous, or habit-forming, drugs. Dr. Pierce's Golden Medical Discovery should be taken to correct the blood—which is always at fault in these cases—and to act specifically upon the diseased glands and lining

membrane of the nose. The Catarrh Remedy fluid should be used warm and, preferably, with Doctor Pierce's Nasal Douche—by which it can be perfectly

applied to all the affected passages.

Dr. Sage's Catarrh Remedy promptly subdues acute attacks of "cold in the head," which would otherwise often result in Chronic Catarrh. Its cleansing, antiseptic, soothing, and healing properties are very pronounced. Sold by druggists.

Assist Nature

A little now and then, with a searching and cleansing, yet gentle cathartic, to remove offending r atter from the stomach and bowels, to tone up and invigorate the liver and quicken its tardy action, and you thereby avoid

a multitude of diseases.

If people would pay more attention to properly regulating the action of their bowels, they would have less frequent occasion to call for their doctor's services to subdue attacks of dangerous diseases.

Of all known agents to accomplish this purpose, Dr. Pierce's Pleasant Pellets are unequaled. Their secondary effect is to keep the bowels open and regular, not to further constipate. Hence, their great popularity with sufferers from habitual constipation, piles and their

attendant discomfort.

Regulate Stomach, Liver, Bowels.

One little "Pellet" is a laxative, two or three are cathartic. They regulate and cleanse the liver, stomach and bowels—quickly, but thoroughly. They are

tiny, sugar-coated, anti-bilious granules, scarcely larger

than mustard seeds. Easy to take as candy.

Let the druggist who says something else is "just as good" sell that something else to somebody else. Don't let him trifle with your health for the sake of a little more profit to himself. Dr. Pierce's Pleasant Pellets—it's an easy name to remember—be sure you get what you ask for.

DR. PIERCE'S

ANODYNE PILE OINTMENT

is a soothing, cooling, healing, antiseptic application and will cure all cases amenable to medical treatment. Of course, it will be understood that in very old and obstinate cases, and when the tumors are very large and have become hard or calloused, nothing but personal treatment, applied by a specialist for these affections, will permanently cure them. Our Specialists annually cure hundreds of such bad cases where Dr. Pierce's Ointment or any other medical treatment, self-applied, would not be sufficient to make a perfect and permanent cure. The "Anodyne Ointment" is a very soothing and healing application for Anal Fissures, or Cracks, and kindred troubles.

Sold at 50 cents by all medicine dealers, or sent by mail, post-paid to any address on receipt of above price in postage stamps. Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, 663 Main Street, Buffalo, N. Y.

Invalids' Hotel & Surgical Institute, 663 Main St., Buffalo, n. y.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors.

Organized with a Full Staff of Physicians and Surgeons FOR THE TREATMENT OF

◇ALL CHRONIC DISEASES. ◇

We have not the space to speak, individually, of the many professional men composing the Faculty of this old and world-famed Institution, but will say that among them are those whose long connection with the Invalids' Hotel and Surgical Institute has rendered them experts in their several specialities.

Not Necessary to See Patients.

By our system of diagnosis, we can treat many chronic diseases just as successfully without as with a personal consultation. We have not seen one person in five hundred whom we have cured. The perfect accuracy with which scientists are enabled to deduce the most minute particulars in their several departments, appears almost miraculous, if we view it in the light of the early ages. Take, for example, the electro-magnetic telegraph. Is it not a marvelous degree of accuracy which enables an operator to exactly locate a fracture in a submarine cable nearly three thousand miles long?

And so in all departments of modern science, what is re-Signs of quired is the knowledge of certain signs. From these scientists deduce accurate conclusions, re-Discare, gardless of distance. So, also, in medical science, diseases have certain unmistakable signs, or symptoms, and by reason of this fact, we have been enabled to originate and perfect a system of determining with the greatest accuracy, the nature of chronic diseases. In recognizing diseases without a personal examination, we claim to possess no miraculous powers. We obtain our knowledge of the patient's disease by the practical application to the practice of medicine, of well-established principles of modern science.

Advantages of Specialties.

By thorough organization and subdividing the practice of medicine and surgery in our Institutions, every invalid is treated by a specialist—one who devotes his undivided attention to the particular class of diseases to which the case belongs, The advantage of this arrangement must be obvious. Medical science covers a field so vast that no physician can, within the limits of a life-time, achieve the highest degree of success in the treatment of every malady incidental to humanity.

OUR FIELD OF SUCCESS.

By abandoning the treatment of all diseases except those in which we have attained the greatest success, and then still further narrowing and concentrating our study and professional efforts by again subdividing these affections, giving to each member of our Faculty but a single disease, or class of diseases to treat, we have attained the best possible results. Recognizing the fact that no great institution dedicated

Nasal, Throat and

Lung Diseases.

exclusively to the treatment of chronic diseases and subdivided into well-equipped and thoroughlyorganized Departments, would at all meet the needs of the afflicted of our land, without the most perfect, complete and extensive provision being made for the system-

atic examination and most improved and scientific treatment of diseases of the air=passages and lungs, such as Chronic Nasal Catarrh, Laryngitis, Bronchitis, Asthma and Consumption, we have made this branch of our Institution one of the leading Departments. We have not only assigned to its management physicians of the most eminent qualifications and mature experience, but have also provided every kind of useful instrument for examining the organs involved, such as rhinoscopes, larvngoscopes, stethoscopes, spirometers, etc., etc., as well as all of the most approved kinds of apparatus for the application of sprays, fumigations, atomizations, inhalations and all other forms of medical applications, which a vast experience has proved worthy of our confidence.

An exhaustive consideration of the above diseases is con-

tained in the "Medical Adviser".

Diseases of Women.

So alarmingly prevalent are those chronic diseases peculiar to women, and so famous have our Institutions become for their cure, that we were long ago obliged to create a Special Department, now thoroughly organ-

ized, devoted exclusively to the treatment of these cases. The physicians and surgeons in this Department have made these delicate diseases their sole study.

Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Every difficult case (and we get few which have not already baffled the skill of all the home physicians) has the benefit of a full Council, composed of skilled specialists. Our rooms for ladies are so arranged as to be very private.

Twenty-one cents in one-cent stamps will secure the "Medical Adviser," containing several chapters, profusely illus-

trated, treating of above diseases.

By our new and improved method of treatment, with Electrolysis and other means of our discovery and invention, many Fibroid and Fibro - Cystic Tumors of the Uterus and Ovarian Tumors are readily reduced and per-Women. manently cured, without pain, shock, or risk. These tumors are generally regarded as incurable by the profession, except when removed with the knife.

Ovarian Tumors.

This Treatise cites numerous bad cases of both Fibro-Cystic and Ovarian Tumors which have been cured by our specialists without resort to the knife. Our surgeons only operate for the removal of Ovarian Tumors in exceptional cases, that is, when

the tumor is very large, is interfering seriously with the health, and when its attachments are not so extensive as to preclude the possibility of successful removal with the knife. Yet, their practice annually requires them to remove many Ovarian Tumors, not favorable for reduction and cure by electrolysis. They have thereby acquired a national fame for the extraordinary success of their ovariotomy operations. For further particulars, send and get the "People's Med-

ical Adviser," by Dr. Pierce.

BARRENNESS, or STERILITY, is generally due to causes which can be easily removed, yet are not generally under-stood by physicians, who manifest little interest and often treat lightly a subject fraught with so much importance to humanity. Our specialists have devoted to this subject care-By their skill stricture of the neck of the uterus, and other impediments to the bearing of offspring, have been easily and painlessly overcome, and hundreds of homes thereby made happy. Further particulars in "Medical Ad-

Kidney Diseases.

BRIGHT'S DISEASE, DIABETES, and kindred maladies, have been very largely treated and cures effected in thousands of cases which had been pronounced beyond hope. These diseases are readily diagnosticated, or determined, by chemical analy-

sis of the urine, without a personal examination of the patients, who can therefore, generally be successfully treated at their homes. The study and practice of chemical analysis and microscopical examination of the urine in our consideration of cases, with reference to correct diagnosis, in which our Institutions long ago became famous, has naturally led to a very extensive practice in diseases of the urinary organs. Probably no other institution in the world has been so largely patronized by sufferers from this class of maladies as the old World's Dispensary and Invalids' Hotel. Our specialists have acquired, through a vast and varied experience, great expertness in determining the exact nature of each case, and hence, have been successful in nicely adapting their remedies for

the cure of each individual case.

The treatment of diseases of the urinary organs having constituted a prominent branch, or specialty, of our practice at the Invalids' Hotel and Surgical Institute, and being in receipt of numerous inquiries for a complete work on the nature and curability of these maladies, we cannot do better than to refer all such inquirers to the "People's Medical Adviser," containing as it does, an exhaustive consideration of these maladies.

Bladder Diseases.

INFLAMMATION OF THE BLADDER. Gravel, Enlarged Prostate Gland, Retention of Urine and kindred affections, may be included among those in the cure of which our specialists have achieved marvelous success. These are fully treated of in

the "People's Medical Adviser."

STONE IN THE BLADDER, no matter how Stone. large, is crushed, pulverized, washed out and perfectly removed by our surgeons, in the most skillful and safe manner possible and without any cutting, thereby avoiding the great danger of the old and commonly employed operations for stone.

Send particulars of your case, and twenty-one cents in one-

cent stamps, for "Medical Adviser."

Stricture.

STRICTURES AND URINARY FIS-TULAS .- Hundreds of cases of the worst form of strictures, many of them greatly aggravated by the careless use of instru-

ments, in the hands of inexperienced physicians and surgeons, causing false passages, urinary fistulæ, and other complications, annually consult us for relief and cure. no case of this class is too difficult for the skill of our specialists, is proved by cures reported in our illustrated treatise on these maladies, to which we refer with pride. To intrust this class of cases to physicians of small experience, is a dangerous proceeding. Many a man has been ruined for life by so doing, while thousands annually lose their lives through unskillful treatment. In bad cases, when cutting is imperative, we adopt means which render unnecessary any use of bougies after the operation. This is a great relief to the patient, saving him much unnecessary pain and tedious annoyance, gives the greatest satisfaction and results in the most perfect and permanent cures. Thousands of men suffer unconsciously from slight strictures, which keep up and perpetuate diseases of the bladder and other delicate maladies. A slight stricture often goes unobserved by the patient and is entirely overlooked by the physician as well, even when it is the cause of failure to cure lingering, gleety discharges, or nightly emissions of the vital fluid, and perhaps, of serious disease of the bladder and kidneys as well. A vast experience in this field of practice has taught our surgeons to look for these slight strictures and promptly cure them. All ordinary cases are cured by us without cutting.

Nervous Diseases.

Epileptic Convulsions, or Fits, Paralysis, or Palsy, Locomotor Ataxia, St. Vitus's Dance, Insomnia, or inability to sleep and threatened insanity, Nervous Debility, Nervous Exhaustion, or prostration, arising from overstudy, excesses

and other causes and every variety of nervous affection, are treated by our specialists for these diseases, with a measure

of success heretofore unparalleled.

Diseases of Digestion.

Dyspepsia, "Liver Complaint," Obstinate Constipation, "hronic Diarrhea, Tape-worms, and kindred affections, are among those chronic diseases in the successful treatment of which our specialists have attained Warns of the disease affective the liver

Many of the diseases affecting the liver unparalleled success. and other organs, contributing in their functions to the processes of digestion, are very obscure and are not infrequently mistaken by both laymen and physicians for other maladies and treatment employed directed to the removal of a disease which does not exist. In our practice examinations of the urine have contributed important aid in ascertaining the real nature of these maladies—furnishing, as they do, in this class of affections, unmistakable cuta to guide the accomplished practitioner aright. While we do not overlook the importance of other aids in forming a diagnosis, or opinion, of the nature of diseases affecting the digestive organs, yet we certainly should not know how to get along successfully, with these diseases, without the help of microscopical and chemical examinations of the urine. These diseases and their cure are fully considered in "Medical Adviser."

Pile Tumors. PILES, FISTULÆ, and other diseases affecting the lower bowels, are treated with wonderful success. The worst cases of pile tumors are permanently cured in fifteen to twenty days. See "Medical Adviser."

Radical Cure of Rupture.

HERNIA (Breach), or RUPTURE, no matter of how long standing, or of what size, is promptly and permanently cured, by our specialists, without the knife and without dependence upon to see the see that the knife and without dependence upon to see the see that the knife and without dependence upon to see the see that th

Throw Away

which thousands annually die.

Delicate Diseases.

Organic weakness, nervous debility, premature decline of the manly powers, involuntary vital losses and kindred affections, are speedily, thoroughly and permanently cured.

To those acquainted with our Institutions, it is hardly necessary to say that the Invalids' Hotel and Surgical Institute, with the branch establishment at No. 3 New Oxford Street, London, England, have, for many years, enjoyed the distinction of being the most largely patronized and widely celebrated Institutions in the world for the treatment and cure of those affections which arise from youthful indiscretions and solitary practices. We many years ago, established a Special Department for

We many years ago, established a Special Department for the treatment of these diseases, under the management of some of the most skillful physicians and surgeons of our staff.

We offer no apology for devoting so much attention to this neglected class of diseases, believing that no condition of humanity is too wretched to merit the we belong. Why any one should consider it otherwise than most honorable to cure the worst cases of the noble profession to which most honorable to cure the worst cases of these diseases, we cannot understand. Of all other maladies which afflict mankind there are probably none about which physicians, in general practice, know so little.

We shall, therefore, continue, as heretofore, to treat with our best consideration, sympathy, and skill, all applicants who are suffering from any of these delicate diseases.

Startling Weakness. esty, the youth of our land are kept in ignorance of the baneful and ruinous results which certain solitary, indiscreet practices produce. These vices, when persisted in eventually undermine the constitution, and induce nervous debility. exhaustion, prostration, and premature loss of virile power. Among the earliest manifestations which they occasion, is a desire on the part of the sufferer to avoid society—solitude being preferred. The most common symptoms are languor, mental anxiety, gloomy forebodings, melancholia, or hypochondria, impaired memory, physicial and nervous debility, and indigestion. A drain of the most delicate and debilitating character is made upon the system.

Hidden In many cases the loss occurs unobserved by the sufferer. To this hidden drain upon the system Loss. may be attributed the cause of many diseases of the nerves, stomach, heart, kidneys, and bladder. Thus we can account for a large proportion of all cases of epilepsy, palsy or paralysis, apoplexy, softening of the brain, insanity, loss of nervous and muscular power, and similar affections.

SYMPTOMS.—The patient experiences languor and melancholy, has an irritable disposition, often cold, dry, scurfy skin, blotches, and other cutaneous eruptions. He has a downcast look, absence of will-power, unfounded suspicions, feeble, trembling limbs, weakness in the back, night-sweats, horrible dreams, offensive smell about the person, haggard and blanched complexion, derangement of the sight, lack of self-confidence, impaired memory, want of energy, and many other symptoms which are indicative of the disease. No one suffering from the diseases induced by these evils will, at any one stage, experience more than a small part of the symptoms enumerated.

MARRIED MEN who are suffering from a flagging of their powers, or, in other words, from premature old age, consult our specialists by hundreds and thousands for relief. Knowing that these diseases are sadly overlooked and neglected

by the great mass of the medical profession, these gentlemen have given special attention to them, and have developed and perfected a series of most positive remedies for such cases. These remedies restore the wrecked and debilitated organs to perfect vigor, arrest premature exhaustion, impart tone and energy to the whole system, and, like rejuvenating elixirs, fully restore the flagging powers and dormant energies.

Positively Certain. remedies in producing the desired effect, that we regard this sired effect, that we regard the form of disease as being more easily cured than almost any other chronic or lingering affection. We prescribe them not only with assurance, but with the same confidence that we would give bread and beef to a starving man to satisfy his hunger. They act as rejuvenating elixirs. The patient is subjected to no operating or experimenting, and he can safely and accurately follow the directions given, while the treatment does not interfere with any ordinary occupation in which he may be engaged. These delicate diseases should not be entrusted to physicians who advertise under fictitious names, or to those of ordinary qualifications. The general practitioner cannot acquire the skill of a specialist who annually treats thousands of cases, while the former seldom, if ever, has occasion to prescribe for them. Our Medical and Surgical Staff embraces graduates from some of the most famous American and European medical colleges and universities, and the vast experience which they have had in such diseases, together with the discovery of new remedies and modes of cure, has enabled them to succeed in thousands of cases in which others have failed.

Cured at a distance just as well as if they were here in the distance just as well as if they were here in person. Since our experience has enabled us from a written description of the symptoms, and from answers to questions which we ask, we can therefore, adapt remedies to suit each individual case. Not one out of five hundred of those whom we have cured have we ever seen.

All communications are regarded as sacredly confidential. Since many are very sensitive lest somebody should know that they are afflicted with such diseases, great precaution is always taken by us to send all letters and medicines in plain packages carefully sealed, so that no one can even *suspect* the contents, or by whom sent. Further information upon this subject to *men* in the "Medical Adviser."

Varicocele.

Varicocele, (False Rupture) or enlarged veins of the scrotum, feeling like a bundle of earth-worms about the cord, a condition caused by strains,

abuses or excesses, and generally resulting, if not early relieved, in loss of manly power, or impotency, from its tendency to cause wasting of the organs, has been very largely treated during the past thirty-five years, and with the most gratifying results. Our improved appliances and treatment enable us to cure the milder cases without operation. The worst cases are operated upon by an ingenious method of our own invention, which we employed over four hundred times

during the past year, and with perfect success in every case. This operation proves to be entirely free from the great danger attending the old operations still in use by most surgeons, and enables the patient to get about in two or three days and return home in a week's time, while to cure by the old methods requires six weeks at least and oftener two or three months. See testimonials in the "Medical Adviser."

Surgical Practice.

Hundreds of the most difficult operations known to modern surgery are annually performed in the most skillful manner by our surgeon-specialists. Large Stones are safely removed from the Bladder, by crushing, washing and

pumping them out, thus avoiding the great danger of cutting.
Large numbers of Ovarian Tumors, not favorable for reduction and cure by electrolysis, are annually removed by our surgeons, who have acquired a national fame for the extraor-

dinary success of their Ovariotomy operations.

Especially has the success of our improved operations for Varicocele, Hydrocele, Fistula in Ano, Ruptured Cervix Uteri, Ruptured Perineum, and for Vesico-vaginal and Recto-vaginal Fistulæ, been alike gratifying both to ourselves and our patients. Not less so have been the results of numerous operations for Stricture of the Cervical Canal, a condition in the female generally resulting in Barrenness, or Sterility, and the cure of which, by a safe and painless operation, removes this commonest of impediments to the bearing of offspring.

All Chronic Diseases A Specialty.

Although we have in the preceding paragraphs, made mention of some of the special ailments to which particular attention is given by specialists at the Invalids' Hotel and Surgical Institute, yet the Institution abounds in skill, facilities, and apparatus for the successful treatment

of every form of chronic ailment, whether requiring for its

cure medical or surgical means.

The medicines which we employ in our private practice, as well as the few proprietary or "put-up" remedies manufactured by us for sale through druggists are all made in our great Laboratory, at Buffalo, N. Y., which is under the direct supervision of a most competent chemist and pharmacist.

All letters of inquiry, or of consultation, should be ad-

dressed to
